NOTES:
1. Size of frost wall applies to Logix 6.25", 8", 10" and 12" ICFs (concrete core thickness)
3. Provide double mat rebar for 12" Logix with minimum \( \frac{3}{4} \)" concrete cover to vertical bars.
NOTES:

1. Size of frost wall applies to Logix 6.25", 8", 10" and 12" ICFs (concrete core thickness)
2. Above-grade wall applies to Logix ICF complying with Section 6, Engineering, of the Logix Design Manual. Maximum above-grade wall size is equal to size of frost wall.
3. Provide double mat rebar for 12" Logix frost walls with minimum 2" concrete cover to vertical bars.
