360 WEST CONDOS

TYPE OF BUILD Multi-Family
LOCATION Tillsonburg, Ontario
SIZE 60 Townhomes
YEAR BUILT 2023

LOGIX BRANDS
2023 AWARD
WINNER

DESIGN HIGHLIGHTS

The Logix Plan Set Conversion service was instrumental in enabling the developer to convert the exterior walls from wood frame to ICF. This service made the designer comfortable, made estimating easier and gave comfort to the building officials.

CONSTRUCTION FACTS

The developer began using ICF for the foundations only, then progressed to building the demizing walls with ICF, and finally to constructing the exterior walls with ICF as well.

RESILIENCE, SUSTAINABILITY & COMFORT NOTES

This is a net zero ready development - the developer pays the utility bills for the first 6 months!

“Developing the Logix ICF business with 360 Developments has allowed our dealer to supply Logix ICF, floor packages, interior wall framing, drywall, stone and siding veneers, rebar, trim, doors and shingles.”

Grant Litwin, Logix ICF Territory Manager
