Dear Francis,

Re: LOGIX ICF Technical Bulletins No's. 18 and 19

I have reviewed the above referenced Technical Bulletins in order to verify the accuracy of claims made with respect to the potential for LOGIX ICFs to help earn LEED points.

Technical Bulletin No. 18 which deals with LEED NC v3 makes fair and valid claims as to how the use of LOGIX ICFs can help projects earn LEED points under the LEED NC v3 guidelines. I reviewed this Technical Bulletin using the CaGBC's LEED NC v.1 guidelines which are very similar, but not identical to the USGBC's guidelines for new construction and major renovations.

Technical Bulletin No. 19 which deals with LEED for Schools v3 makes fair and valid claims as to how the use of LOGIX ICFs can help projects earn LEED points under the LEED for Schools v3 guidelines. It should be noted that I reviewed this Technical Bulletin using the USGBC's LEED for Schools v3 online guidelines. This online resource is not detailed but provides sufficient information to convince me that the claims made in Bulletin No. 19 are fair and reasonable.

For further clarification on how LOGIX ICFs contribute to LEED projects please contact me at the coordinates below.

Sincerely,

Alastair Moore, MRM, LEED AP
